

# HERE ARE 3 GOOD REASONS... TO CUSTOMIZE YOUR DATA TAPES!

- 1. Brand Identity**
- 2. Data Management**
- 3. Extra Security**

Fujifilm offers customized pad printing on Super DLTape® II, Super DLTape® I, LTO Ultrium 3 and LTO Ultrium 2 tape cartridges. Whether you're looking to increase your company visibility, track cartridge movement or easily identify your tapes at an off-site vault, custom pad printing adds extra security for your important company data. Contact an Authorized Fujifilm Dealer for details.

# CUSTOM PAD PRINT ORDERING

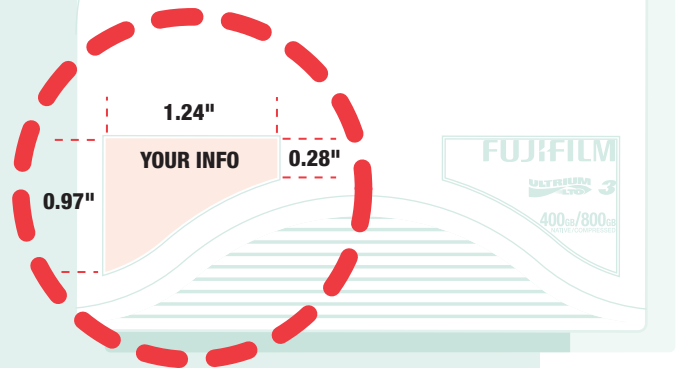

- 1. Send your custom pad print information and exact product description to your Authorized Fujifilm Dealer.**  
Provide your custom pad print information in Adobe Illustrator format\* (as detailed below), sized to fit in the imprint area detailed in the illustration below. Custom Pad Print information can include, but is not limited to, a company logo. See the Custom Pad Print Initial Set Up Form for a list of all descriptions (product description example: LTO 3, Custom Pad Print, with Barcode and Library Pack).
- 2. Approve your cartridge pad print layout.**  
Within 3 business days of receiving your artwork, you will receive a .PDF proof of your custom cartridge pad print layout. Please review and approve your pad print layout through your Authorized Fujifilm Dealer.

- 3. Receive your unique part number.**  
Once your approval is submitted by your Fujifilm dealer, a Fujifilm unique part number for each custom pad print description will be assigned. The Fujifilm part number assigned will be used when ordering your custom pad print product.
- 4. Submit your Custom Pad Print order to your Authorized Fujifilm Dealer.**  
Your completed Custom Pad Print order must accompany your unique Fujifilm part number and corresponding purchase order to insure accurate processing.  
**Minimum Order Quantity: 200 pcs.**

*Please allow 15 business days from date of approval for processing of your initial order.*
