

FUJIFILM

DATA TAPE COURIER™

INTRODUCING

the **DATA TAPE COURIER**, a one-size fits all, safe and secure media shipper. It can be used to transport data cartridges from one location to another or to off-site storage, in fulfillment of your company's commercial, proprietary and regulatory requirements. The **DATA TAPE COURIER** is certified and approved by **Fujifilm*** to protect ½-inch data cartridges during transport.

* #1 supplier of ½-inch data cartridges in the U.S. per Santa Clara Consulting Group.

PRODUCT LINE-UP

- Single Pack DATA TAPE COURIER includes specially molded plastic clamshell, shipping carton, Tamper Evident Seal and moisture-resistant sleeve.
- Five Pack DATA TAPE COURIER SHIPPER safely holds five (5) tape cartridges.
- 10-Pack DATA TAPE COURIER SHIPPER safely holds ten (10) tape cartridges.
- DATA TAPE COURIER BULK PACK includes fifty (50) clamshells, packed flat. *(Does not include shippers, Tamper Evident Seals or moisture-resistant sleeves.)*

SPECIFICATIONS

- Clamshell designed to hold all LTO Ultrium, DLT®, 3592 and 3590 data cartridges.
- Certified and approved by Fujifilm for safe data tape transportation.
- Shippers are designed for single use and are 100% recyclable.
- Lightweight and easy to use.
- Shippers are 44 lb. ECT.
- Packaged 10 per carton except bulk pack, which contains 50 clamshells.
- US patent pending.

The unique, DATA TAPE COURIER system offers a custom thermal molded plastic clamshell which safely cradles a single data tape cartridge. This clamshell snaps closed and is then placed in the corrugated shipping box or multi-pack shipper.
