

Value-Added Service: Custom Barcode Labeling

Fujifilm offers a customized barcode labeling service within our state-of-the-art U.S. manufacturing facility in Bedford, Massachusetts. Our barcode labeling service occurs within the same clean-room environment as product manufacturing, ensuring that the same quality controls used during the production process are replicated. As a bonus, Fujifilm offers the option to print a company logo or other identifying information on the barcode label all at no additional cost.

Customize Your Barcode Label

Promote your brand and identify your data quicker

Clean-Room Environment Labeling

Rest assured knowing the highest quality controls are used

No Additional Cost

Save time and money with cartridges equipped for use directly out of the box
