# Ink Reference Chart

For Dimatix Printheads and Jetting Assemblies

## Ink Approval

In collaboration with its Ink Partners, Dimatix has implemented an approval process for inks intended for use in its printheads.

## Approved Inks

Approved Inks are those inks provided by our Ink Partners that have met a suite of requirements as defined by Dimatix. These requirements include materials compatibility testing, jetting reliability, scale-up manufacturing, significant field experience, and supporting documentation. This ensures that the ink does no damage to Dimatix printheads when used in the prescribed manner.

## Our Ink Partners

Dimatix has established strong collaboration with a number of the world's leading ink manufacturers. These companies provide a broad range of ink products suitable for use in Dimatix printheads and they have a proven track record in developing, formulating, and manufacturing high performance ink jet inks for a broad range of applications.
